PURPOSE
To describe policies and procedures for completing the minutes of the convened meetings of the University of New Mexico (UNM) Institutional Review Board (IRB).

REVISIONS FROM PREVIOUS VERSION
Removed references to minutes being approved by Full Board.

POLICY
The federal policies for the protection of human subjects [45 CFR 46.115(a)(2)] require that "Minutes of IRB meetings shall be in sufficient detail to show attendance at the meeting; actions taken by the IRB; the vote on these actions including the number of members voting for, against, and abstaining; the basis for requiring changes in or disapproving research; and a written summary of the discussion of controvertied issues and their resolution." (Office for Human Research Protections)

Good minutes enable a reader who was not present at the meeting to determine exactly how and with what justification the IRB arrived at its decisions. They also provide the IRB itself with sufficient detail to help it reconstruct its discussions at a later date, if necessary. Comprehensive minutes also demonstrate respect for the human subjects of research. Meeting minutes do not have to contain information provided in protocols the IRB has previously approved. This process assumes that if IRB members do not discuss a particular issue, the IRB deems the issue acceptable.

RESPONSIBILITIES
Execution of SOP: OIRB Staff, OIRB Director, IRB.

PROCEDURE
Minutes Preparation

1. The OIRB staff member attending the convened IRB meeting drafts detailed notes to document IRB discussions and determinations. OIRB staff use the OIRB minutes template as a guide in drafting minutes. Examples of the type of information included in the minutes are as follows:
   • The location of the meeting and the time the IRB convened the meeting and adjourned;
   • Announcements and continuing education activities presented to the IRB;
   • Documentation of attendance to include:
o Initial and continued presence of a majority of members (i.e. quorum), including at least one nonscientist (See IRB Meeting Conduct SOP for definition of a quorum.);

o Whether an alternate is voting and for whom he/she is voting;

o When a member leaves the room or leaves the meeting.

• Minutes on the review of each protocol include the following:
  o The names of IRB member recused from the meeting due to a conflict of interest during the discussion and vote of the study;
  o Separate deliberations for each action taken by the IRB;
  o A summary of the discussion of any controverted issues and their resolutions;
  o The vote on these actions, including the number of voting “for,” “opposed,” or “abstaining”;
  o In order to document the continued existence of a quorum, OIRB staff record votes in the minutes using the following format: # (e.g. 1, 2, 3, 4, or 5)/Total = 15; VOTE: For = 14, Opposed = 0, Abstained = 1;
  o The IRB's determination on frequency of continuation review (based on the degree of risk or the risk/benefit ratio);
  o Name of the investigator and others attending the meeting, if appropriate;
  o The basis for requiring changes in the research;
  o The level of risk determined by the IRB (at initial review; on all other reviews, the minutes only list level of risk if it has changed).

2. When the IRB disapproves a protocol, OIRB staff document the basis for the disapproval in the minutes and document discussion of the controverted issues.

3. OIRB staff write IRB meeting minutes impersonally and do not attribute opinions expressed by IRB members. Typically, the minutes only identify members by name when they recuse themselves from a particular review due to conflict of interest or leave the meeting for any reason.

4. The IRB considers written comments and or information provided by ad hoc or cultural consultants in the review process. Ad hoc or cultural consultants may provide comments or recommendations in writing to the IRB prior to the meeting or attend the convened meeting to participate in the review. IRB staff maintain documentation of written comments or reports in the protocol file. In cases where the consultant participates in the meeting, the minutes of the meeting document the information provided by the consultant.

Alternates

1. IRB meeting minutes document when an alternate IRB member replaces a voting IRB member and for whom the alternate is substituting.

2. When alternates substitute for a primary member, the alternate member receives and reviews the same material that the primary reviewer received or would have received.

Specific Findings

1. When the IRB makes specific findings at convened meetings, OIRB staff document these findings in the minutes of the meeting and include protocol-specific information justifying each finding. Examples of specific findings include, but are not limited to:
- **Alteration or Waiver of the Informed Consent Process:** When the convened IRB reviews a procedure that alters or waives the requirements of informed consent, the minutes document the IRB’s determinations required by the federal regulations (45 CFR 46.116).

- **Waiver of Documentation of Informed Consent:** When the convened IRB reviews a procedure that waives the requirements for obtaining a signed informed consent document, the minutes document that the IRB made the findings in accordance with federal regulations (45 CFR 46.117, 21 CFR 56.109).

- **Research Involving Deception:** When the convened IRB reviews research involving deception, the minutes document that the IRB made the findings in accordance with 45 CFR 46.116.

- **Research Involving Prisoners:** When the IRB reviews research involving prisoners, the minutes indicate that the research meets the findings required by 45 CFR 46.335(a) and represents one of the categories of research permissible under Health and Human Services (HHS) regulations required by 45 CFR 46.306(a).
  - At least one member of the IRB is a prisoner or a prisoner representative with appropriate background and experience to serve in that capacity.
  - A majority of the IRB (exclusive of the prisoner representative) have no association with the prison involved, apart from their membership on the IRB.

- In cases where more than one IRB reviews a particular research project, only one IRB need satisfy this requirement. **Research Involving Children:** When the IRB reviews research involving children, the minutes document that the IRB made the findings in accordance with IRB policy and federal regulations (HHS 45 CFR 46 Subpart D 46.404-46.407 and FDA 21 CFR Subpart D 50.50-50.55).

- **Wards of the State or Other Agency:** When the IRB reviews research involving children who are wards of the state or any other agency, institution, or entity, the minutes document that the IRB made the findings in accordance with federal regulations (45 CFR 46.409 and 21 CFR 50.56).

- **Research Involving Pregnant Women, Human Fetuses and Neonates:** When the IRB reviews research involving pregnant women, human fetuses, and neonates, the minutes must document that the IRB made the findings in accordance with federal regulations (45 CFR 46 Subpart B).

- **Research Involving Individuals with Impaired Consent Capacity:** When the IRB reviews research involving individuals who are determined to be cognitively impaired and/or lack consent capacity, the minutes document that the IRB made the findings in accordance with federal regulations [45 CFR 46.111(b), 21 CFR 56.111(b)], and local policy.

- **Investigational Devices:** The minutes document the IRB’s determination of significant or nonsignificant risk for Investigational New Devices and the rationale for that decision, in accordance with federal regulations [[21 CFR 812.3(m)].

---

**Department of Health and Human Services (DHHS) Approved Sample Consent Documents (e.g., NIH-Supported Multi-center Clinical Trials)**

1. When the IRB reviews DHHS-approved informed consent documents (e.g., NIH-supported multi-center clinical trials), the minutes include justification for any instance in which the IRB requested or approved the investigator’s deletions or substantive modifications of information concerning risks or alternative procedures contained in the DHHS-approved sample informed consent document.
Tele/Videoconference Participation

1. At a meeting in which IRB members participate via telephone, meeting minutes document that the IRB member:
   • Has received all pertinent material prior to the meeting; and
   • Can actively and equally participate in the discussion of all protocols.

Distribution of Minutes

1. OIRB staff complete a draft of the IRB meeting minutes that is reviewed by the OIRB Director.
2. OIRB staff disseminate the minutes as part of the IRB agenda.
3. A list of IRB initial, continuing and amendment reviews conducted outside of meeting are distributed and published monthly in IRBNet as a Minutes supplement.
4. Each IRB member present during the convened meeting reviews the minutes and forwards any necessary revisions to the appropriate OIRB staff member. The IRB delegates to OIRB staff the authority to correct administrative errors in meeting minutes as appropriate.
5. The minutes are made available to the Institutional Official and others as deemed appropriate by the OIRB or the IRB.

Record Keeping

1. OIRB staff maintain an electronic copy in a secure OIRB directory indefinitely.
